---

## Objective:

A Computer Science student from Conestoga College with a strong foundation in programming and web development. Proficient in multiple programming languages and passionate about keeping up with the latest technologies. Seeking a junior developer role to further hone skills and contribute to innovative projects.

## Education:

**Conestoga College - Computer Science: Programming** September 2020 - present

**Conestoga College - Business Administration: Finance** September 2016 - 2019

**Conestoga College - Business Foundations** September 2015 - 2016

## Skills:

- Proficient in C, C++, C#, JavaScript, HTML, CSS
- Quick learner with the ability to adapt to new programming languages
- Detail-oriented with a keen eye for code quality and optimization
- Independent problem solver with strong troubleshooting skills
- Knowledge of Agile Development and Scrum Methodologies
- Up-to-date with the latest technologies and trends in web development
- Currently pursuing industry certification in team management (Scrum Master) to help bring together my programming and business knowledge

## Portfolio Highlights:

- **Web Apps:** Developed multiple web applications showcasing proficiency in working on frontend applications and working with various APIs.
- **Terminal Apps:** Created a series of terminal-based applications during early academic years, demonstrating foundational coding skills.

## Additional Information:

- Open to both frontend and backend development roles.
- Passionate about coding and continuous learning
- Eager to learn new languages and frameworks or earn certifications as needed
- Committed to ongoing professional development and industry networking.
